

HAZARDOUS WASTE FACILITY  
INSPECTION FORM

SDMS Document

67620

Facility Name: Scientific Chemical Processing  
Facility Type: Transfer, Storage, Processing

I.D. # 020574  
Date: 10/30/79  
Time: 10:15

Street: Paterson Plank Road  
Town: Carlstadt  
County: Bergen

Lot:  
Phone: 201-939-1116  
Person Contacted: Mac Barnes  
Position: Plant Manager

Inspector: George Smajda

Weather Conditions: Clear ☒ Rain ☐ Snow ☐

Wind Direction: W Temp: 45 Speed 5-10 MPH

Security Measures: Fence ☒ Yes ☐ No

Guard ☐ Yes ☒ No

Other Operates 24 hours, 7 days

Safety Features:

Firefighting ☒ Yes ☐ No

Type:

Extinguisher ☒ Guns ☐ Other ☐ Extinguisher needs recharging.

Protective Clothing: ☒ Yes ☐ No  
(Issued to Employees)

Written Emergency Procedures Posted ☒ Yes ☐ No

Inspection Observations:

Odors: On Site ☒ Yes ☐ No Off Site ☒ Yes ☐ No

Source: Still and thin film operations, off-site unknown.

Leaks, Spills: On Site ☒ Yes ☐ No Off Site ☐ Yes ☐ No

Source: Thin film area - drum storage, Tank T-10

Overall Housekeeping: Poor ☒ Fair ☐ Good ☐ Excellent ☐

Drum Storage:

Total No. 2200+ Size 55 gal. Type metal

Stacked Height: ☒ 1 Drum ☐ 2 Drums ☐ 3 Drums ☐ 4 or more

Palletized: ☒ Yes ☒ No  
1600+ on pallets  
remaining drums on ground  
approximately 250 drums on pad

Observations and/or Other Comments

4. Seepage into creek near fuel tanks observed.
5. Observed 27 drums on trailer near pad with manifest #'s C25049 and 25034.
6. Drum pad has multi-colored materials on top and sides.
7. Tank T-10, containing thin film still bottoms has several holes and leaks. Material leaking onto ground.
8. Approximately 1800 drums on ground area for storage. About 1/4 open tops covered with plastic lid. Approximately 1600 drums neatly stacked. Leakage, spillage, damaged, and rusted drums observed. Observed red, brown, and milky white substances on ground. Mr. Barnes states that all drums are paint pigments and that all liquids have been pumped off for fuel blending.
